Chocolate Tahini Brownies

FROM NELL'S KITCHEN

Chocolate and tahini are such a beautiful combination.

Makes 9 brownies · Prep 15 min · Cook 22 min

INGREDIENTS

- 170g unsalted butter
- 200g dark chocolate, roughly chopped
- 100g granulated sugar
- 3 eggs
- 1 tbsp vanilla extract
- 100g all-purpose flour
- 30g unsweetened cocoa powder
- Pinch of salt
- 120g tahini, well stirred
- Maldon sea salt, for finishing

METHOD

1. Preheat the oven to 175°C.
2. Line a 20 × 20cm baking pan with baking paper, leaving enough overhang to lift the brownies out easily.
3. Place the butter and dark chocolate in a heatproof bowl. Melt them together over a bain-marie or in the microwave in short intervals, stirring until completely smooth.
4. Set the chocolate mixture aside to cool slightly.
5. In a separate bowl, whisk the eggs, sugar and vanilla extract until well combined.
6. Gradually pour the melted chocolate mixture into the egg mixture, stirring continuously until smooth and glossy.
7. Sift in the flour, cocoa powder and salt.
8. Gently fold the dry ingredients into the chocolate mixture until just combined. Avoid overmixing.
9. Pour the batter into the prepared baking pan and spread it evenly.
10. Spoon the tahini over the surface of the brownie batter.
11. Using the tip of a knife or a toothpick, gently swirl the tahini through the surface to create a marbled effect. Do not mix it completely into the batter.
12. Bake for 20–22 minutes, until the edges are set but the center remains slightly soft.
13. Remove the brownies from the oven and allow them to cool completely in the pan.
14. Lift them out using the baking paper and cut them into 9 squares.
15. Finish each brownie with a light sprinkle of Maldon sea salt.
16. Serve the brownies at room temperature, allowing their fudgy consistency and the flavor of the tahini to shine. They are perfect on their own, with coffee, or served as a dessert with a scoop of vanilla ice cream.

Tip

Do not overbake the brownies. A slightly soft center is the secret to their beautifully fudgy consistency.
