

Salted Caramel Bundt Cake

FROM NELL'S KITCHEN

A buttery Bundt cake with a generous salted caramel glaze makes a beautiful centrepiece for the table.

Serves 12–14 · Prep 25 min · Cook 55 min

INGREDIENTS

FOR THE CAKE

- 3 cups plain flour
- ½ tsp baking powder
- ½ tsp baking soda
- ½ tsp salt
- 200 g butter, softened, plus extra for greasing
- 1¼ cups sugar
- 4 eggs, at room temperature
- 1 tsp vanilla extract
- 1 cup sweetened crème fraîche, at room temperature

FOR THE SALTED CARAMEL GLAZE

- 1 cup sugar
- 50 g butter, cut into pieces
- ¾ cup sweetened crème fraîche, at room temperature
- ¼ tsp sea salt flakes

METHOD

1. Prepare the tin. Preheat the oven to 175°C. Thoroughly butter the Bundt tin, reaching into every groove. Dust lightly with flour and tap out the excess.
2. Combine the dry ingredients. Whisk together the flour, baking powder, baking soda and salt.
3. Cream the butter and sugar. Beat the softened butter and sugar until pale and fluffy.
4. Add the eggs one at a time, beating well after each addition. Mix in the vanilla.
5. Finish the batter. With the mixer on low speed, add the flour mixture in three additions, alternating with the crème fraîche in two additions. Begin and end with the flour. Mix only until combined.
6. Bake. Spoon the batter into the prepared tin and smooth the surface. Bake for approximately 45–55 minutes, checking from 45 minutes, until a skewer inserted into the cake comes out clean or with a few moist crumbs.
7. Cool and unmould. Leave in the tin for 10–15 minutes, then carefully turn onto a wire rack. Allow to cool completely before glazing.
8. Make the caramel. Place the sugar in a heavy-based saucepan over medium heat. Allow it to melt, gently swirling the pan as needed, until evenly amber.
9. Reduce the heat and carefully stir in the butter. Gradually add the crème fraîche, a spoonful at a time, stirring carefully as the mixture will bubble and release steam.
10. Stir over low heat until smooth, then add the salt flakes. Remove from the heat and leave to cool until thickened slightly but still pourable.
11. Glaze and serve. Transfer the cake to a serving plate. Spoon the caramel over the top, allowing it to flow down the sides. Serve any remaining glaze alongside.

Tip

Prepare every groove of the tin. Thorough greasing and a light flour coating help the cake release neatly.
